

DECISION BT 7/2014

Subject: Five-members rules issue

BT/TCMG, on behalf of BT,

- considering the recommendation of CEN/BT/WG 216 'Internal Regulations' as presented in BT N 9466;
- confirms the 5-member rule commitment, except for adoption, without changes, of existing ISO standards as ENs;
- stresses that, when a TC believes that the 5-member rule should not apply, BT may be requested for a derogation through management by exception for a specific WI, including those jointly developed with ISO under the Vienna Agreement

asks CCMC together with the BOSS Management Team to reflect this in BOSS.
