

RESOLUTION BT 42/2003

Subject: Beyond the 3-year timeframe for EN's

BT approves the proposal enclosed in document BT N 6962, noting that it implies

- the reduction of the duration of the 'normal' UAP and PQ Procedure to 5 months for all work items registered from 2002-11-01;
- the reduction of the duration of the 'shortened' UAP (see Resolution BT 28/1996) to 3 months.

In support of this, CMC is requested to develop a procedure to give advanced notification of the launch of 'shortened' UAPs.

This Resolution is applicable as from: 2003-11-25
