

Changes of STD-Template (Version 2.9a)

No	Template DE EN/FR	Description	Note/Example
1	DE EN/FR	<p>1. Channel CEN: Change of value list for TC Secretariat a) AENOR replaced by UNE b) ISS added.</p> <p>2. Channel Vienna Agreement for ISO and CEN Secretariat see above</p> <p>3. Channel ISO for Secretariat see above.</p>	
2	DE EN/FR	<p>Channel CEN – Option Adoption of ISO Document Type Amendment Standards with part numbers In the text of the European foreword the part number was missing.</p>	Correction. The problem was only related to amendments with part numbers.
3	DE EN/FR	<p>Europäisches Vorwort – Addition of Serbia</p> <p>Europäisches Vorwort Serbien added after Schweiz.</p> <p>European foreword Serbia added after Romania.</p> <p>Avant-propos européen Serbie added after Royaume-Uni.</p>	
4	EN/FR	Style sheet table text 11 added.	Style sheet was missing.
5	DE EN/FR	<p>ISO Foreword Text and hyperlinks updated in all 3 languages.</p>	
6	DE EN/FR	Text of „ Normative references “ and „ Terms and definitions “ updated in all 3 languages.	

No	Template DE EN/FR	Description	Note/Example
7	DE EN/FR	Font size of footnote mark a) STD_DE.dotm The footnote mark was generated in the wrong font size. The size was corrected (2 pt smaller than standard text). b) STD_EN_FR.dotm See above.	Correction
8	DE EN/FR	Footnote – following character Due to an error the next character was deleted when a footnote was added to the text. This was corrected.	Correction
9	DE EN/FR	Storage path deleted on metadata page The storage path was deleted.	
10	DE EN/FR	Annex Z – 2nd paragraph Adding of a field function (reference to the table number) in the text.	In case of 2 annexes (e.g. Annex ZB), the reference to the table in the 2 nd paragraph was generated incorrectly "Table ZA.1" instead of "Table ZB.1). This was corrected.
