

## DECISION BT 003/2023

**Subject:** Skipping the Formal Vote including Fast-Track procedure in ISO

BT/TCMG, on behalf of BT,

- noting
  - the report on the outcome of CEN/BT TCMG TG on the Vienna Agreement as in Annex 1;
  - the conclusions of the discussions on Fast-Track procedure in ISO and skipping the Formal Vote, in particular that, under VA, CEN follows the process of the lead organization and the decision to skip the Formal Vote delays the process for the publication;
- decides to exempt from the requirement of taking a CEN/TC decision to skip the formal vote:
  - all WIs under ISO lead leading to the development of EN ISO standards (already published by ISO or developed in parallel), if the Enquiry results and, where applicable HAS Consultant assessment, are positive and no technical changes are made before publication;
  - all WIs under ISO lead leading to the development of EN ISO standards in case when ISO goes directly to FDIS (ISO adoption from other organization, minor revisions and in all other cases where ISO goes to FDIS and CEN goes to Enquiry), if the Enquiry results and, where applicable, HAS Consultant assessment, are positive and no technical changes are made before publication;
- stresses the voting policy where Members should vote negatively in case of technical concerns with the draft EN ISO standard;
- asks CCMC to update CEN BOSS accordingly;
- repeals decision BT 12/2018.

*This decision is applicable as from: 2023-02-22*
