

RESOLUTION BT 9/2001

Subject: New deliverables – Action plan

BT,

- agrees upon the Action plan on the launching of the new range of deliverables as given in Document BT N 6379, and in particular accepts 2001-09-01 as target date for the launching of the new range of CEN Deliverables;
- sets up a mirror working group BT/WG 128 "Internal Regulations", under the convenorship of CMC, with the aim of establishing CEN's position regarding Internal Regulations Part II and deciding on the CEN delegation for the CEN/CENELEC corresponding common working group (WG "CEN/CENELEC IR "). The membership is open to every CEN Member;
- agrees that the Internal Regulations Part II should be a document providing top level policies and main characteristics of structures, deliverables and procedures that are common to CEN and CENELEC, without going into detailed operations, which, for CEN, are set out in the CEN BOSS. BT requests BT/WG 128 "Internal Regulations" to communicate this view to the common WG "CEN/CENELEC IR".

This Resolution is applicable as from : 2001-04-19
