

RESOLUTION BT 20/2004

Subject: Adoption of new work (including feasibility study)

BT,

- considering the agreement to find a mechanism to improve the discipline in the adoption of new work by technical committees;
- noting that this has been the subject of much discussion and deliberation in the past;
- noting the work done in particular by BT/CAG 131 and the proposals made to CEN/BT in November 2003 (BT N 6982 and BT N 6983);

decides,

- to adopt the procedure in document BT N 7113, including BT N 6982 and BT N 6983;
- to create a small BT Working Group (BT/WG 170) to consider the possible further development of the procedure;

notes that AFNOR, BSI, DIN, NSF, UNI, NORMAPME and CMC, under the Convenorship of DIN, will participate in the group.

This resolution is applicable as from: 2004-05-14
