

DECISION BT 30/2014

Subject: NWI proposal circulation

BT

- referring to Decision BT C4/2014 about the putting into force of the NWI form for the approval of a New Work Item by a TC;
- confirms that the new NWI proposal form is of mandatory use since 1 March 2014;
- acknowledges the need to use the Committee Internal Balloting (CIB) for TC adoption of NWI proposals, in order to ensure that NWI proposals are subject to consideration of all TC members before adoption;
- decides that the Committee Internal Balloting shall be systematically used by TCs for the adoption of NWI;
- noting the need to have a ballot template for NWI in the CIB system in order to support a consistent process, asks CCMC to implement the necessary technical arrangements for the implementation of the Committee Internal Balloting by the end of 2014.
