

## **RESOLUTION BT 33/1997**

**Subject:** CEN Optimization - Further decisions delegated to the CEN/TCs

BT, noting the positive results of the pilot phase for TC Delegated Decisions, following up the resolution CA 36/1996 which suggests to extend further the delegation of decision taking to TCs, adds to the delegated decisions as given in Resolution BT 76/1996 rev the following, as from 1997-07-01:

- decision to pass a second formal vote in case of a negative result on a first formal vote;
  - decision on results of the 2-year's review on ENV;
- launching of an amendment on published EN strictly within the scope of the initial EN.
