

DECISION BT 037/2020

Subject: CIB use cases - duration

BT,

- stresses the importance of drafting clear and unambiguous texts for CIB, with complete reference documents, and confirms that a reasonable amount of time in order to find national consensus on the topic should be given to NSB representatives when voting via CIB;
- recommends setting a timeframe for CIB of 4 weeks, unless specified otherwise by BT, e.g. Adoption of NWI and Activation of PWI (2 months);
- confirms that the TC Secretary, in consultation with the TC Chair/WG Convenor, can,
 - with due justification, shorten the 4-week timeframe to a minimum of 2 weeks, provided that no objection is voiced by any NSB;
 - extend the 4-week timeframe; furthermore, NSBs with due justification, may ask for an extension;
- invites CCMC, in cooperation with the BOSS Maintenance Team, to upload the information on BOSS with some practical guidance.

This decision is applicable as from: 2020-09-29
