

RESOLUTION BT 40/2003

Subject: CAG Action 2 – Delayed pre-Enquiry drafts

BT decides that for all work items that have been registered more than 2 years in the past and that have not yet resulted in a draft for submission to an adoption procedure, a draft must be sent to CMC for submission to CEN Enquiry or UAP (case of EN's) or to Vote (case of CEN/TS's and CEN/TR's) within the following 6 months.

Any work item for which that does not happen shall be deleted unless acceptable justification is provided to BT/TCMG, it being understood that the responsible CEN Technical Body is allowed to approve a new work item covering the same subject within the rules of the 3 year timeframe. Considering that ISO has implemented similar measures for the ISO Standards in development, BT decides that the above provisions do not apply to those drafts that are being developed within the framework of the Vienna Agreement under ISO lead.

This Resolution is applicable as from: 2003-11-25
