

## RESOLUTION BT 109/1994

**Subject:** Normative references in ENs to documents other than CEN, CLC, ETSI, ISO or IEC documents

BT agrees with document BT N 3790 giving a CEN policy regarding the use of normative references, modified as follows:

- the clauses be organized in accordance with the CENELEC proposal given in the annex to document BT N 3926, with deletion of the words "the TC or SC Secretariat" in clause 2.1.7;
- the wording of the clauses 2.5.4 and 2.5.8 will be kept as in the annex to document BT N 3926 be taken over;
- the clause 2.6.2 of document BT N 3790 be complemented by the wording "(with the definitions of EN 45020)" after the words "ISO/IEC Guide 59 Code of practice for standardization";
- the words "master" and "and authoritative status" be deleted from clauses 2.2.2 and 2.6.1 respectively.

BT decides on its immediate application, asks CS to inform the TC and SC and invites CENELEC, ETSI, ECISS to follow similar procedures.

*NOTE of BOSS editor:* BT N 3790 is covered in guidance document '[GD - Normative references](#)'.
